new 2017

Taking your kids for a walk or out of town can become a lot more convenient with the use of HandyPotty – a transportable traveling potty. This simple device is a combination of the functions of three accessories – a standard potty, a travel potty and an adapter seat which can be put atop outdoor toilets. All of the above makes HandyPotty a perfect device for long-term use.

The multifunctionality of this folding potty is provided by its well thought-out design – a wide plastic seat is placed on four wide stable legs. To choose a single option, you only need to change positions of the legs and make use of additional accessories, such as a reusable silicone liner.

1. Light but robust design.

2. The seat has an integrated splash guard to prevent spraying accidents.

3. It's possible to use while on the move.

4. Folding for easy packing.

5. Convenient size and lightweight.

The run bike DIP DAP is a brilliant first bike for child starting from age 2.

The run bike DIP DAP is made from birch plywood, its high-quality materials, and well-designed features. **Made in EU.**

ACCESSORIES

SADDLE COVERS, BAGS & CARRYING STRAP

BEST QUALITY ON THE MARKET MADE IN EU.

On a run bike, children start walking forward; then they start to sit and run and, finally, glide, picking their feet off the ground.

This process can take a day or two or a few weeks, depending on the age and development of the child. However, it is a FUN and EASY process and at the same time develops sense of balance and coordination skills of your child.

WHY TO BUY RUN BIKE DIP DAP

The surface is treated with environmentally and child-friendly linseed oil instead of varnish.

Lightweight but strong.

from 3,4 kg.

Unique steering joint prevents to extreme direction changes and a crimping of the fingers provided added stability and safety.

The run bike has 10 or 12-inch wheels, which are very robust and simple and come with pneumatic tires. Wheels with bearing – its mean wheels are easy going.

Develops child confidence and independence.

Dipdap carrying strap - Your best friend, when your child is tired.

Indoor and outdoor use.

TEHNIICAL PARAMETERS:

Wheels: 10 or 12-inch wheels with bearing and with pneumatic tires.

Weight: 3,4 - 3,9kg.

Saddle height: from 34 - 45 cm (adjustable).

Saddle has cover made from durable fabric and is removable for washing.

Attipas®

Attipas toddler shoes were released in 2011 after 7 years of research and development at the Seoul University. Based on kinetic and physio-dynamic tests of toddlers walking, these unique non slip shoes ergonomically support infants first steps and thereafter. With university, industry and educational cooperation, we are proud to introduce these internationally patented toddler shoes to the market.

Attipas are the number one choice of shoes for babies, toddlers and preschoolers. As light as a sock but more supportive than a pre walker, Attipas will support your little one from their very first steps until 4 years of age.

Attipas shoes are fully machine washable to 30 degrees celcius. When washing and drying, please use a laundry net. Note to maintain the quality of the fabric, hand wash and air-dry is preferred.

www.limidom.nl

5. Lightweight & Flexible

Super lightweight, just like wearing socks!

4. Safety

Non use of hazardous materials and adhesives, no use of formaldehyde

3. Big Toe Box

Free toe movement to improve cognitive and motor development

1. Convenience

Strong, Smooth, Non-Slip, Machine Washable, Fast-Drying

2. Breathable

Superior, breathable fine holes release heat (International Patent)

Attipas shoes are Walking Science™.
